FAITH

Of Catholic Boys Is the Foundation For Highminded Men.

President of Brooklyn College Talked to His Many Pupils.

Pointed Out Errors of Those Who Made Our Schools Irreligious.

URGED ALL TO KEEP THE FAITH

Recently the President of Prooktyn College, Rev. Father J. F. X. O'Connor, celebrated his silver jubi-lee, and at the "College Night" reception he addressed the students in a paternal manner. What he said to the boys of Brooklyn might be said to every boy attending a Catholie school or college, Among other things Father O'Connor said:

Not turrets or high walls make a city, but men, high-minded men. Not spacious halls and stocked intellects make a college, but Christian boys, high-minded boys with faith in their minds and the love of Christ in their hearts. These make a college alone worthy of the name. The great joy to me in this jubilee, with the glory of the spiritual joy of twentyfive years of priesthood, is the thought that God has given to me this year 400 boys. Four hundred boys with the faith of the Christian in their minds, the love of Christ our Lord in their hearts, the beauty and the morality of the law of Christ in their lives, which can be brought there and kept there only by the dogmatic teaching of the Christian

"This you will not find in the other universities of the land who do not or can not enforce dogmatic teaching of the Christian faith because there the President can not control the pro feasors if he willed, and the professors will not accept the control of Christian faith, and the pupils turn away from God. Their minds are olunged into a chaos of doubt and be wilderment and their college career seaves them agnostics or infidels, and has robbed them of the Christian taith of their childhood, But this is American origin. During the civil not so with you, my boys. Kept Things Moving at Quarterly A. O. H. Meeting.

The four divisions of the Ancient Order of Hibernians held their general quarterly meeting at Bertrand Hall last Sunday afternoon. County President D. J. Coleman presided and the attendance was large and repre-sentative. Thomas Lawler, of Division 1, read the communication from

the National Board on organization and general good of the order. William M. Higgins was called apon for an address and spoke on the necessity of organization. Thomas W. Tarpey advocated the unification and consolidation of the four local divisions. He also suggested means by which the general membership would be increased, and commended the young men for perpetuating this great society that had been founded

by their forefathers. Ex-County President Welsh made a strong plea for the recognition of the South on the National Board. He also reminded the members that the four divisions had resolved on a big street parade next St. Patrick's day and called upon all to strive to increase the membership. Attorney Lawrence J. Mackey also spoke in favor of a better representation from the South on the National Board.

John H. Hennessy, President of Division 4, was called upon to tell the secret of his division's success in securing new members. He declined reveal any secrets, but said his division was made up of hustlers who stood by their officers and did what

was expected of them. Others who made able addresses and timely suggestions were William P. McDonogh, John J. Barry, Thomas Walsh, Thomas Keenan, Thomas Lynch and County President, Cole-

Of course our orators and editors know something about it, to judge by their pleasant paragraphs on occasions. We are told in grandiose sentences of the splendid growth of the church in America, but their knowledge begins and ends in these gorgeous phrases. What are the elements of that growth, what are its dencies, no one knows. Outside of the professors of history in the Catholic colleges, only the few have read John Gilmary Shea's four volumes, or Bishop O'Gorman's sketch in one volume of American church
